

INSTAPURGE™

COMMODITY-GRADE CLEANING COMPOUND

Don't pay for more purging performance than you need.

If you don't process exotic resins or operate large, complex equipment, you probably don't need (and shouldn't pay for) a "high performance" purging compound. What you need is a hard-working, "commodity-grade" purging material that's safe, effective and highly economical.

The answer is simple- and more affordable – **InstaPurge™** !

InstaPurge™ Cleaning Compound is a field-tested and proven physical purging agent designed to simplify and improve the cleaning of injection moulding machines.

InstaPurge™ increases output and reduces costs associated with changeovers.

***It's easy to use, user-friendly, safe for your equipment and people
.... and it works !***

InstaPurge™ is available in unfilled and glassfilled grades.

Unfilled is: Instapurge **U** (bags of 25 kgs)

Glassfilled is: Instapurge **F** (bags of 20 kgs)

Warning: Do not use InstaPurge **F to clean hot-runners !!**

**Instapurge™ Cleaning Compound cleans your machinery thoroughly.
It gives you quick, trouble-free changeovers and
let's your shop run at peak efficiency.
Here's how:**

- Pelletized **InstaPurge™** handles and feeds easily, like production material. No mixing, no mess.
- **InstaPurge™** Cleaning Compound is stiff enough to displace production resins effectively at normal operating temperatures. No waiting around for heats to come up.
- **InstaPurge™** does its job in a straightforward way. Just run it through as described in the simple instructions. No complicated multi-step procedures; no soak period required.
- When the job is done, all residues of **InstaPurge™** Cleaning Compound are flushed from the system quickly by the following production resins. Thanks to its unique formulation, the compound doesn't adhere to screw flights and barrel walls.

With InstaPurge™ you can:

- Purge easily, 1st shift or 3rd
- Change colour quickly
- Remove carbon deposits effectively
- Minimize contamination
- Reduce waste
- Clean safely

InstaPurge™ features:

- High thermal stability
- Low abrasion
- No odour, no smoke, no toxic ingredients
- Easy-to-use pellets
- No technical support is required

InstaPurge™ provides these important benefits:

- "Best-in-Class" Purging performance at an attractive price
- Simple to use – no complex procedures
- No irritating odours during use
- Easily purged from the machine when the job's done

It's easy. It's simple. It's safe. It works.
