STATEMENT

To whom it may concern

9 May 2017

Engineering Chemicals B.V. Steenbergen, The Netherlands, has requested Plastics Evalu-Aid OHG to verify whether their products are suitable for use as cleaning granulates or injection moulding machines and extruders, which are not intended to come in direct contact with food, in view of the EU Regulation, Dutch legislation and Code of Federal Regulations of the USA. For this purpose detailed information on the composition was provided by the client and/or its (sub)-suppliers. The composition provided was considered to be complete and correct. The samples were identified as follows (hereinafter called „Samples“):

Supernova LTH
Supernova LTF
Supernova LT
Supernova ST

Supernova HT
Supernova CC
Supernova CX

Tests and Regulations:

The tests performed were in line with the requirements of the Regulation (EC) No. 1935/2004 of 27 October 2004 and with the FDA 21 CFR of the USA of 1 April 2007 (hereinafter called „Regulations“).

Results:

The results were described in detail in the analytical report dated 9 May 2017. In summary it is stated that the composition of the „Samples“ is in accordance with the „Regulations“.

Conclusion:

Regarding the qualitative composition the „Samples“ can be considered to be suitable for use as cleaning granulate for injection moulding machines and extruders, which are not intended to come in direct contact with food in view of the „Regulations“.

The cleaning granulates should be properly used according Commission Regulation (EC) No. 2023/2006 of 22 December 2006 on good manufacturing practice for materials and articles intended to come in contact with food.

This statement expires on 9 May 2023.
